September 9, 2021

Dear Families,

Across the country and here on the island, schools are experiencing a shortage of school bus drivers, and consequently we are stretched very thin in our Transportation Department. Moreover, finding replacements or substitutes for drivers and monitors is extremely challenging. We continue to actively recruit new drivers, and we ask for your patience and understanding if routes are negatively impacted by this shortage. School administrators will make every effort to communicate to families when a bus route is running late or delayed.

If you know of anyone who is interested in becoming a bus driver or monitor and can assist us with this challenge, please have her/him contact our Transportation Director, Marc Rivers, at mrivers@mvyps.org.

Please do not hesitate to reach out if you have any questions.

Sincerely,

Matthew D’Andrea, L.P.D.
